## COUNCIL COMMUNICATION

TO: City Council  
FROM: City Manager  
MEETING DATE: November 5, 1986  
SUBJECT: Hutchins Street Improvement Project - Rimby to Vine

RECOMMENDED ACTION: That the City Council set a public hearing on the Hutchins Street project for December 17, 1986 to consider the Environmental Impact Report Update and the project alternates.

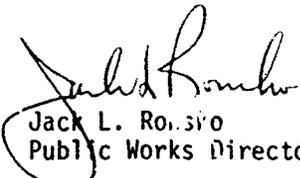

BACKGROUND INFORMATION: On September 17, 1986, the Council heard a staff presentation on the alternates for the Hutchins Street project. They were:

Alternate A - Reconstruct the street within existing curbs and install one travel lane in each direction, a two-way left turn lane, and no parking on the west side.

Alternate B - Widen the street on the west side by acquiring five feet of right-of-way plus utility easements and reconstruct the street with one travel lane in each direction, a two-way left turn lane, and parking on both sides.

The project approved in 1981 and budgeted for construction in 1986 consisted of reconstructing the street within existing curbs with one travel lane in each direction and parking on both sides. A left turn lane was to be installed at Vine Street - this has been done.

After hearing the alternates, Council directed staff to update the 1981 EIR to cover Alternates A and B and bring the matter back to the Council at a later date.
