NOVEMBER 7, 1984

CC 148
CC 270

BIDS REJECTED
FOR LODI LAKE
STORM DRAIN
OUTFALL

COUNCIL REJECTED ALL THE BIDS RECEIVED FOR LODI LAKE STORM
DRAIN OUTFALL, AND DIRECTED THE PUBLIC WORKS DIRECTOR TO
REDESIGN AND READVERTISE THE PROJECT.

pg 287

CITY OF LODI

PUBLIC WORKS DEPARTMENT

COUNCIL COMMUNICATION

TO: City Council
 FROM: City Manager
 DATE: November 2, 1984
 SUBJECT: Lodi Lake Storm Drain Outfall

Project Data

Approved in F.Y. Budget: 1984
 Fund: Federal Revenue Sharing
 Amount Budgeted: \$120,000
 Total Project Estimate: \$60,000
 Bid Opening Date: October 31, 1984

RECOMMENDED ACTION: That the City Council reject all bids and direct the Public Works Director to redesign and readvertise the project.

BACKGROUND INFORMATION: This project includes the installation of an additional storm drain outfall along the west bank of Lodi Lake. The present pump station outfall is near the swim area and is a nuisance when in use. The proposed outfall will carry all the discharge except during major storms when excess flow will divert to the present outfall. This should pose no problem since the swim area should not be in use during those times. Plans and specifications for this project were approved on October 3, 1984.

The City has received the following 5 bids for this project:

<u>NAME OF BIDDER</u>	<u>LOCATION</u>	<u>AMOUNT OF BID</u>
Contri Construction Co.	Reno, Nevada	\$ 95,274.00
Claude C. Wood Co.	Lodi	\$ 97,237.00
Central Ready Mix	Modesto	\$ 97,725.00
South Tahoe Construction Co.	Gardnerville, Nevada	\$104,966.00
Granite Construction Co.	Stockton	\$167,850.00
Crutchfield Construction Co.	Stockton	\$169,511.00
Engineer's Estimate		\$ 60,000

A tabulation of the bids is attached.

The Engineer's Estimate was based on the assumption that cast-in-place concrete pipe would be installed. The contractors felt this would not be feasible due to possible soil conditions and access limitations and priced the project for steel pipe. By redesigning the project to allow the pipe to be installed west (see attached sketch) of the levee, these problems will be minimized. In addition, the cost of the overflow structure will be reduced. These charges should save at least \$15,000. By approving this change now, the redesign and bidding can be done before the first of the year and the work can be done before the Lake is refilled this spring.
