COUNCIL COMMUNICATION

TO:	City Council	<u>Project Data</u>	
FROM:	City Manager	Originally Budgeted:	1986-87
DATE:	November 19, 1986	Budgeted Fund:	White Slough
		Amount Budgeted:	\$10,000
SUBJECT:	Renewal of Instrument Maintenance Service Contract for White Slough Water Pollution Control Facility	Final Project Cost:	\$ 8,895

RECOMMENDED ACTION: That the City Council approve the renewal of the Instrument Maintenance Service Contract for the period of January 1, 1987 through December 31, 1987; with Brantley Instrument Company, Inc. for White Slough Water Pollution Control Facility.

BACKGROUND INFORMATION: Brantley Instrument Company of San Leandro has been maintaining the instrumentation at the White Slough Water Pollution Control Facility for the last year. We recently received the attached quote from them for \$8,895 (no increase) for the 1987 calendar year. The work under this year's contract is the same as in the 1986 contract.

In 1986 we went to formal bid and received a bid from Brantley Instrument Company of \$8,895; bid from Diablo Control Company of \$10,000; and bid from Aqua Sierra Controls of \$17,948. We have reviewed Brantley's performance with field staff, who indicate far superior workmanship from this firm to others we've used in past contracts.

There was \$10,000 budgeted for this item in the 1986-87 Operating Budget.
