Gentlemen:

It has come to my attention that plans may be in the making to renovate the Wood Shop Area of the Community Center in Lodi. As you may already know, the Union-sponsored Brick and Tile Apprentice Class is presently using the facilities for "hands on" instruction. Consequently, we are requesting permission to transfer the class to the Auto Shop Area on the southwest corner of the property.

Since the City of Lodi has benefited from the "fruits of our labor" in the past, we feel that continued use of the property as well as further opportunity to service the Lodi Area would help to contribute to our promising young Apprentices becoming accomplished Journeyman. Additionally, we would hope to assist with renovating the Community Center as the need arises.

We kindly thank you for your past assistance and cooperation with us and look forward to an affirmative response regarding continued use of your fine facilities.

Sincerely,

Milton E. Stirm
Chairman for the Joint
Apprenticeship Committee
