LARGE-SCALE RETAIL INITIATIVE (Text of Proposed Ordinance)

SECTION 1. Purpose and Findings.

A. **Purpose.** The purpose of this Initiative is to protect and preserve the existing community character and fabric, and promote the continuation of neighborhood/community commercial centers and the downtown commercial center. Also, the purpose of this Initiative is to ensure that the purposes and principles set forth in the City of Lodi's General Plan are fully considered by establishing sensibly scaled retail development and maintenance of the City of Lodi's unique character. This action recognizes that large-scaled retail stores affecting the city shall be subject to approval by the City Council and a public vote.

B. **Findings.** The people of the City of Lodi find that regulating size and bulk of retail stores, through this Initiative, promotes the welfare, economy, and quality of life of the residents of Lodi, based upon the following:

1. **Regulating Scale of Retail Stores Protects the Unique Character and Quality of Life in Lodi.**

An important component of the City of Lodi is maintaining its unique character. Lodi's small-town and rural qualities are a valuable trait of the town. Large-scale retail stores detract from the community's character and aesthetics. Large retail stores are usually located some distance away from residential neighborhoods because they require large sites, which are usually found only in zones outside of the downtown area. Large-scale retail often consists of long, plain facades, a sea of parking, and sparse landscaping.

The unique character of the City of Lodi and the quality of life enjoyed by City residents and visitors depend on the protection of the small-town and rural qualities. The protection of such attributes aids the continued viability of the city and brings mental and physical benefits from the broad protection of Lodi residents' quality of life.

2. **Strengthening Lodi's Economy.**

It is important to have sensibly scaled retail stores in order to continue to strengthen and sensibly develop Lodi's existing economy. Lodi has a number of shopping centers providing the community with merchandise and services. Large-scale retail stores affect existing shopping centers by causing the existing stores to go out of business, thus destabilizing the shopping centers, and leaving empty, boarded-up buildings, which increase crime and blight. The surrounding area loses the merchandise and services offered by the existing businesses. Sometimes a large-scale retail company will close down an existing store, and replace it with a superstore, which also results in a large, empty store.

3. **Ensuring Adequate Public Services for the City.**

There are negative impacts to not having sensibly scaled retail stores, including safety. Large-scale retail stores require significantly higher commitment of police, fire, and public safety resources compared to smaller neighborhood stores.

Usually large-scale stores fail to provide provisions for the pedestrians entering the store. It is often dangerous even to walk from the parking lot to the entrance of the store, with cars driving and maneuvering in the very large parking area. The larger stores usually involve longer trips and generate more traffic in a concentrated area, and thus require improved street capacity in their immediate neighborhoods. The elderly, handicapped, and poor, who may not have access to larger retail stores because they are located at greater distances away from their neighborhoods due to the large land acquisition requirements of the larger retail stores.

C. **Effect of Initiative.** To achieve the above-stated purposes, this Initiative would amend the City of Lodi's Ordinance and General Plan to establish a limit on large-scale retail stores that exceed 125,000 square feet of gross floor area. Also, it would require that any large-scale retail project proposal containing commercial retail structures that exceed 125,000 square feet of gross floor area be subject to approval by the City Council and a public vote in the next general election.

Exhibits. This Initiative does not have any exhibits attached, but relies upon the design standards for large-scale stores recently adopted by the City.

SECTION 2. Zoning Ordinance and General Plan Amendments

WHEREAS, the Lodi General Plan establishes a policy framework that forms the City of Lodi's strategy for retail; and

WHEREAS, the Lodi General Plan and Zoning Ordinance recognize distinct types of shopping centers such as neighborhood/community commercial; general commercial; commercial shopping center; and downtown commercial; and

WHEREAS, the Lodi General Plan establishes policies encouraging promoting downtown Lodi as the City's social and cultural center and an economically viable retail and professional office district, it promotes locating future commercial retail in downtown Lodi and preserving the existing small-town scale and character of Lodi; and

WHEREAS, General Plan policies promote and encourage vital neighborhood commercial districts that are evenly distributed throughout the city so that residents are able to meet their basic daily shopping needs at neighborhood shopping centers; and

WHEREAS, the California Government Code also provides that in order for the ordinance to be consistent with the General Plan, the various land uses authorized by the ordinance should be compatible with the objectives, policies, general land uses, and programs specified in the General Plan; and

WHEREAS, the Lodi Zoning Ordinance (Title 17 of the Lodi Municipal Code) has not kept pace with the evolution of the retail sector and fails to adequately distinguish the size, scale, and scope of various retail activities; and

WHEREAS, an emerging national trend exists toward increasing the size of retail stores and the diversity of products offered at such large-scale retail stores; and

EXHIBIT A

LARGE-SCALE RETAIL INITIATIVE
(Text of Proposed Ordinance)
Page 3 of 7

WHEREAS, the establishment of large-scale retail stores in Lodi is likely to negatively impact the vitality and economic viability of the city's neighborhood community commercial and downtown commercial centers by drawing sales away from traditional retail stores located in these centers; and

WHEREAS, large-scale retail stores adversely affect the viability of small-scale, pedestrian-friendly neighborhood commercial areas, contributing to blight in these areas; and

WHEREAS, given the city's current population of 60,000, there are currently adequate retail stores to support the market for large-scale retail; and

WHEREAS, the proposed amendments to the Zoning Ordinance and General Plan are intended to preserve the city's existing neighborhood-serving shopping centers that are centrally located within the community; and

WHEREAS, this distribution of shopping and employment creates a land use pattern that reduces the need for vehicle trips and encourages walking and biking for shopping, services, and employment; and

WHEREAS, significant concern with large-scale retail stores is that they combine neighborhood-serving retail in a more remote, regional-serving retail center, which would result in the decline of neighborhood-serving retail stores by consolidating their activity in a single, outlying location; and

WHEREAS, the remote location of large-scale retail stores means that local residents are forced to drive further for basic services such as groceries, and are forced to take longer and more frequent traffic trips to the regional commercial center to satisfy basic everyday needs, increasing overall traffic and overburdening streets that were not designed to accommodate such traffic; and

WHEREAS, the proposed amendments to Lodi's Zoning Ordinance and General Plan, by limiting large-scale retail stores, will prevent the negative transportation and related air quality impacts that establishment of such stores is likely to have; and

WHEREAS, numerous local jurisdictions in the country and the State of California, taking all of the above considerations in mind, have enacted ordinances on new large retail stores over a certain size that either completely prohibit new retail stores over a certain size or require special impact studies; and

WHEREAS, California jurisdictions that have recently enacted such regulations to help sustain the vitality of small-scale, more pedestrian-oriented neighborhood shopping districts include the cities of Turlock, Santa Maria, San Luis Obispo, Arroyo Grande, Oakland, and Martinez; and

WHEREAS, a potential discount superstore would directly contravene the approach the city's General Plan established for retail; and

Page 4 of 7*

WHEREAS, the proposed regulations will place stricter controls on the establishment of, or conversion to large-scale stores and would prevent a large-scale retail store with potential negative environmental impacts from being established in Lodi, but will not itself generate environmental impacts or necessitate environmental review; and

WHEREAS, the adoption of these regulations does not approve any development project nor does it disturb the physical environment either directly or indirectly as the regulations modify the limitations of land use by limiting large-scale retail stores that exceed 125,000 square feet of gross floor area and require such projects be approved by the City Council and the citizens' votes in the next general election; and

WHEREAS, requiring voter approval of land use development of large-scale retail stores that exceed 125,000 square feet of gross floor area will ensure opportunities for full public participation in decisions affecting future land use, quality of life, and character of the City of Lodi.
