So ordered.

President Lawrence reported having taken up the question of site of a Water and Light Plant and having referred the matter back to the Board.

A general discussion was then entered into and it appeared to be the consensus of opinion of those present that the proper or most available site was the Osborne lot at the corner of Sacramento St., and Lodi Ave.

The sites under discussion being the Osborne lot of 100 ft. on Sac. St., 17 ft. deep, and 185 ft. along the railroad for \$2500; The Bernhart Tract Lot opposite the Osborne Lot 120 ft. wide and about 600 ft. deep for \$4000 per acre; and the Kerney Lifts at Railroad Ave. and Cherokee Lane at \$225 per lot.

It was moved by F. O. Hale, seconded by L. Villinger that the Osborne Tract be considered as the basis of estimate for a Water & Light Plant. Carried and so ordered.

No further business coming before the Board, the Board then adjourned.
