COUNCIL COMMUNICATION

AGENDA TITLE: Conduct Public Hearing to Consider the Eastside Alley Lighting Project

MEETING DATE: November 2 1994

PREPARED BY: Community Development Director

RECOMMENDED ACTION: That the City Council conduct a public hearing to consider staff recommendations and citizen input regarding the installation of new light fixtures in alleys as a part of the Eastside Alley Lighting Project. It is also being requested that the City Council approve staff recommendations as presented, and authorize the advertisement of bids for this project.

BACKGROUND INFORMATION: At the request of the Eastside Improvement Committee, the City allocated \$100,000 in Community Development Block Grant funds from the 1993-94 entitlement for the Eastside Alley Lighting project. The project area is bordered by Lockeford Street, Cherokee Lane, Kettleman Lane, and the Southern Pacific Railroad Tracks. In consultation with the Lodi Police Department and the Eastside Improvement Committee, staff determined that all alleys in this area need additional illumination. Railroad Avenue, while not an alley, is also being recommended to receive lights. According to the Lodi Police Department and the Eastside Improvement Committee, this street is especially dark and generates a large number of police calls.

Proposed locations of the new light fixtures will be shown on a wall map displayed in the council chambers. These locations as well as the projected costs have been reviewed and approved by the Eastside Improvement Committee.

In order to install as many new lights as quickly as possible, new lights are only being added to existing poles and standards. No new light standards will be installed at this time. Installing 180 lights, the cost of the project will approximate \$55,000. This will leave a remaining balance of around \$45,000 to pursue Phase II of this project, possibly next year. At that time, additional alley and street locations will be considered.
