COUNCIL COMMUNICATION

AGENDA TITLE: Set Public Hearing for April 21, 1993, to Consider Residential Permit Parking in the Vicinity of Tokay High School

MEETING DATE: March 17, 1993

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council set a public hearing for April 21, 1993, to consider request by residents for residential permit parking in the vicinity of Tokay High School.

BACKGROUND INFORMATION: At the October 7, 1992 meeting, City Council asked staff to review the on-street parking situation in the residential areas near Tokay High School. This is not the first request the City has received to review parking in this area. Through the complaint process, the Public Works Department has received two previous requests from residents for permit parking. Until now, none of these complainants have followed through by circulating and returning a petition, necessary to determine if there was sufficient resident interest in this program.

The petition most recently circulated (Exhibit A) was returned to the City in January 1993 and signed by approximately 60% of the residents in the area. Our guideline is that at least 60% of the residents must be in favor of the program prior to bringing the petition to Council. The residents are requesting that their vehicles be exempt from the existing on-street parking restrictions. Parking is restricted on Dartmoor Circle and portions of Century Boulevard between the hours of 9:00 a.m. to 10:00 p.m. and 12:30 p.m. to 2:30 p.m. on school days only (Exhibit B). These restrictions were installed to prevent students from parking in the residential areas adjacent to the High School; however, these restrictions also apply to residents living in the area.

Permit parking programs are currently being used in three areas within the city limits. These areas are the PCP Cannery area (Zone A), portions of the downtown area (Zone B), and the vicinity of Lodi High School (Zone C). In the Lodi High School vicinity and PCP Cannery area, residents who show proof from the Department of Motor Vehicles that their vehicle(s) are registered to their address are eligible for a permit for that vehicle(s). The permit exempts the vehicle from the existing on-street parking restrictions. In the downtown area, anyone is allowed to purchase a parking permit. The permit allows all-day parking in the City lots and on-street parking denoted as a Zone B parking area. The purchasing of permits in all of these areas is not mandatory. Only those wanting a permit would incur the permit cost.

Enforcement of the existing permit parking areas are performed by both Finance Department staff and the Police Department. Finance Department staff currently patrols the permit areas in the PCP Cannery and downtown areas. They also enforce other restricted zones in the downtown area and the handicap and fire lane parking in the major shopping centers. Due to the limited Finance Department enforcement personnel, parking enforcement in the Lodi High School area is performed by the Police Department on an on-call basis.

Recommendation

Based on the apparent success of the permit parking program, staff has no objection to establishing a permit parking program at Tokay High School at the locations shown on Exhibit C, since the situation is similar to that at Lodi High School. If established, this permit parking area would be designated as Zone D.

FUNDING: In the past, staff has asked Council to update the fee charged for these permits. When residential permits were discussed for the Lodi High School area in 1990, staff determined that in order to recover just the signing and sticker costs, the fee should have been increased to \$6.50 per permit for a three-year period. This proposed fee did not include any administrative costs. At that time, Council did not choose to address a fee increase. Council may now wish to review the fees for permits at the Tokay High School area and other existing permit areas. Therefore, staff will be preparing a study on permit costs so it can also be reviewed at the public hearing. If Council does not choose to increase the fees for these permits, the fee would remain at \$3.00 per permit for a three-year period. This is the same fee charged since this program was first implemented, in 1985.

We, the residents of the above area, do hereby petition the City of Lodi to implement a residential permit program for the area shown on the attached exhibit. Currently, this area has the parking restrictions as shown on the attached exhibit. Permits will exempt residents from this restriction.

We understand that the City will charge a fee for each permit. In other residential permit parking programs, the fee to the residents for each permit was \$3.00 for three years. This fee helps defray the cost for signing, enforcing, and recordkeeping, and may change for this zone.
