

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Conduct a Public Hearing to consider and approve community input and proposals for uses of the City's 2003/04 Federal allocation of Community Development Block Grant (CDBG) and HOME Program Funds and the reallocation of available funds from previous program years.

MEETING DATE: March 5, 2003

PREPARED BY: Community Development Director

RECOMMENDED ACTION: That the City Council conduct a Public Hearing to consider potential uses of Federal funds received through the Community Development Block Grant (CDBG) and HOME Programs for the 2003-04 fiscal year and the reallocation of available funds from previous program years. Staff is recommending that the Council approve funding allocation amounts dependent upon the results of the public hearing. A summary of the applications, a listing of the funding requests and staff recommendations are attached as exhibits to this communication.

BACKGROUND INFORMATION: The City will receive \$843,222.00 in CDBG funds and \$245,891.00 in HOME funds from the Federal government for the coming fiscal year. Requests for CDBG funding totaled, \$1,629,263.00 for projects or programs in the 2003/04 Program year. CDBG funds can be used to address a wide range of community needs such as park improvements, ADA retrofits and other community organization based projects. There was one outside request for HOME funds in the amount of \$80,000.00 from Habitat for Humanity. Federal HOME funds must be used to address housing and housing-related activities such as housing rehabilitation and new construction. The balance of HOME funds will be directed to our Housing Assistance Program.

The Community Development Department staff is also adding the reallocation of available funds from a previous Program year in order to get the funds used in a timely manner and keep our balance of funds within HUD Guidelines.

Community Development Department staff has reviewed all applications and has met with most of the program applicants to review their requests. From that review, staff is recommending funding for each applicant in the amount requested, with the following exceptions:

1. **Lodi Unified School District** *Requested Amount: \$245,989 Recommended Amount: \$100,000*
Their request included 7 project sites for the replacement of existing playground equipment or the installation of new playground equipment where none exist now. Due to the constraints of available funding, not all projects have been recommended for approval. Those projects included in the staff recommendation are located within or serve targeted Eastside neighborhoods.

APPROVED: _____

H. Dixon Flynn -- City Manager

2. **Senior Service Agency** *Requested Amount: \$11,440* *Recommended Amount: 0*
 Their request was for a portion of the funding necessary for the purchase of a new delivery vehicle for the Meals on Wheels Program. No increase or expansion of service was documented in their request, so it is not an eligible activity.
3. **Mary Graham Foundation** *Requested Amount: \$57,147* *Recommended Amount: \$48,345*
 A portion of this request, for interior handicap signage, was deemed ineligible as it is or should be part of the current County construction project for the Child Advocacy Center. That portion was also not included in the staff recommendation to due to the limit of available funding.
4. **Lodi Boy's & Girl's Club** *Requested Amount: \$31,000* *Recommended Amount: \$6,385*
 A portion of their request (\$15,115) was deemed ineligible as maintenance and operations expenses. Due to the constraints of available funding, another portion of their request, for exterior signage and a gate for the driveway have not been recommended for approval.
5. **Lodi Parks & Recreation Dept.** *Requested Amount: \$689,000* *Recommended Amount: \$175,000*
 Their request included 8 projects for various park improvements. Funding for 3 of those projects (\$335,000) was determined to be ineligible for this funding. Due to the constraints of available funding, not all of the remaining eligible projects have been recommended for approval. Those projects included in the staff recommendation are the top three projects based upon the Parks & Receptions Departments priorities.
6. **Lodi Public Works Department** *Requested Amount: \$200,000* *Recommended Amount: \$175,000*
 Due to the constraints of available funding, staff was only able to recommend this amount.
7. **LOEL Senior Center** *Requested Amount: \$30,758* *Recommended Amount: \$22,908*
 Their request included 2 projects. Due to the constraints of available funding, only one project could be funded at this time. LOEL Center Administration determined the recommended project to be the more important of the two.

In addition to the 2003/04 CDBG funds allocated from HUD, staff is also recommending the reallocation of existing CDBG funds from the 2002/03 Program year to insure that available funds are used in a timely manner and to meet the needs of a specific applicant. The proposed Mary Graham Children's Shelter Foundation project is scheduled to start as soon as possible in order to be completed by a target date in September. Allocating 2003/04 Program funds to this project would not provide the funding within that timeframe. Due to a lower than expected bid for the Lodi Lake Handicap-Accessible Pedestrian/Bike Path Project which was funded with 2002/03 CDBG funds, additional funds are available there which the Mary Graham Children's Center Foundation could access within their project timeline. At the same time, per HUD Guidelines, if funding is not redistributed and used in a timely manner, we face the possibility of losing those funds. Therefore, staff feels that it is both prudent and appropriate to reallocate those funds, and is forwarding a recommendation accordingly.

In regards to the 2003/04 HOME Program funding, one request for \$80,000 was received from Habitat for Humanity. Staff is recommending approval of that request and is recommending further that the remainder of HOME funds be allocated to the Housing Rehabilitation Loan Program within our existing Housing Assistance Program, which offers low interest loans for housing rehabilitation projects.

All applications for funding are on file in the Community Development Department if any specific detail of a request is desired. A summary of all requests is attached to this document as Exhibit A.

FUNDING: 2003/04 Allocation of CDBG Program Funds: \$843,222.00
2003/04 Allocation of HOME Program Funds: \$245,891.00

BUDGET POLICIES

alternative transportation programs - in conjunction with other state and federal grants for this purpose- will be self-supporting from TDA revenues. As available, TDA funds will also be used for street maintenance projects.

D. Enterprise Fund Allocations to the General Fund

1. The goal of Proposition 4 is to limit growth in appropriations of both state and local government to changes in the cost of living and population in order to control spending levels. Proposition 4 further describes the difference between "tax proceeds" and fees. Tax proceeds are the revenue from regulatory licenses, user charges and user fees to the extent the revenue exceeds the cost of providing the regulation, product or service. (This includes transfers from an enterprise fund to the extent those funds exceeded the cost of providing the services).
2. As discussed above, the funds transferred from the City's enterprise funds to the City's general fund are "In-Lieu of Taxes" to the extent they exceed the cost of services provided by general services (accounting, personnel, legal, insurance, etc.). These taxes will be levied based on prior year revenues as follows:

	<u>2001-02</u>	<u>2002-03</u>
In-lieu of Tax - Electric	12%	12%
In-lieu of Tax - Water	17%	12%
In-lieu of Tax - Sewer	20%	12%

E. Special Revenue Allocations to the General Fund

Revenues the City receives for specific services (i.e. vehicle tow charges) will not be designated for use by an individual department unless required by statute or approved by the City Council. When required by statute (i.e. asset seizure), these funds will be first allocated to the purchase of necessary and essential equipment and/or services prior to purchase with General Fund resources.

F. Grants and Donations

Council must approve applications for grants or acceptance of donations containing restrictions that may have an impact on the budget.

G. USE OF COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDS

Each year, the U.S. Department of Housing and Urban Development (HUD) awards cities grants to carry out a number of community development activities in an effort to revitalize neighborhoods, foster economic development and improve community facilities and services. Lodi receives those grant funds in a formula-based allocation to use to address identified community development needs.

CDBG funds may be used for activities that include, but are not limited to:

BUDGET POLICIES

- Acquisition of real property;
- Relocation or demolition
- Rehabilitation of residential and non-residential structures;
- Construction of new public facilities and improvements, such as water and sewer facilities, streets, neighborhood centers, and the conversion of school buildings for eligible purposes;
- Public Services, within certain limits;
- Activities relating to energy conservation and renewable energy resources; and
- Providing assistance to profit-motivated businesses to carry out economic development and job creating/retention activities.

CDBG funds must also be used to meet one of the following national objectives:

- Provide benefit to low- and moderate-income persons, which includes the handicapped and elderly;
- Prevent or eliminate slums or blight; or
- Meet a specific urgent need because of existing conditions, which pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

The following local objectives are identified for the allocation of CDBG funds:

1. With the exception of certain administrative costs, each proposed use of CDBG funds is categorized as either a public service or a capital improvement/bricks and mortar project. It is the intent of this Budget Policy to give priority in funding to eligible capital improvement projects over public service-related funding requests.
2. HUD has established guidelines that require that funds be allocated and expended in a timely manner. It is the intent of this Budget Policy to require that any proposed funding request meet a readiness criterion to ensure that the funds will be used in the program year that they are awarded, thereby allowing the City to remain in compliance with HUD regulations.

APPROPRIATION LIMITATION

- A. The Council will annually adopt a resolution establishing its appropriation limit calculated in accordance with Article XIII B of the Constitution of the State of California, Section 7900 of the State of California Government Code, and any other voter approved amendments or state legislation that affect the City's appropriation limit.
- B. The City will strive to develop revenue sources, both new and existing, which are considered non-tax proceeds in calculating its appropriations subject to limitation.
- C. The City will annually review user fees and charges and report to the Council the amount of program subsidy, if any, that is being provided by the General Fund or Enterprise Funds.

RESOLUTION NO. 2003-34

A RESOLUTION OF THE LODI CITY COUNCIL APPROVING THE
PROJECTED USE OF FUNDS FOR THE 2003-2004 COMMUNITY

Item 6-1

community development block grant (cdbg) entitlement communities program

Summary:

CDBG provides eligible metropolitan cities and urban counties (called "entitlement communities") with annual direct grants that they can use to revitalize neighborhoods, expand affordable housing and economic opportunities, and/or improve community facilities and services, principally to benefit low- and moderate-income persons.

Purpose:

Since 1974 CDBG has been the backbone of improvement efforts in many communities, providing a flexible source of annual grant funds for local governments nationwide—funds that they, with the participation of local citizens, can devote to the activities that best serve their own particular development priorities, provided that these projects either (1) benefit low- and moderate-income persons; (2) prevent or eliminate slums or blight; or (3) meet other urgent community development needs. The CDBG Entitlement Communities program provides this Federal assistance to almost 1,000 of the largest localities in the country.

As one of the Nation's largest Federal grant programs, the impact of CDBG-funded projects can be seen in the housing stock, the business environment, the streets and the public facilities of these entitlement communities. Although the rehabilitation of affordable housing has traditionally been the largest single use of CDBG funds, the program is also an increasingly important catalyst for economic development activities that expand job and business opportunities for lower income persons and neighborhoods.

Type of Assistance:

Each year, the grant funds available for entitlement communities are allocated according to relative need on the basis of the higher of two formulas. The first considers the presence of overcrowded housing in the locality, its population, and poverty rate. The second uses housing age, population growth lag, and poverty rate.

Eligible Grantees:

Recipients of CDBG entitlement funds include local governments with 50,000 or more residents, other local governments designated as central cities of metropolitan areas, and urban counties with populations of at least 200,000 (excluding the population of entitled cities). Local governments may carry out all activities themselves or award some or all of the funds to private or public nonprofit organizations as well as for-profit entities. A separate component of CDBG—the State CDBG Program—provides program funds to the States, which they allocate among localities that do not qualify as entitlement communities.

Eligible Customers:

Low- and moderate-income persons (generally defined as members of a family earning no more than 80 percent of the area median income) benefit most directly and most often from CDBG-funded activities. Grantees must use at least 70 percent of CDBG funds for activities that principally benefit low- and moderate-income persons. This includes activities where either the majority of direct beneficiaries (from the jobs created, for example, or the housing units rehabilitated) are low- or moderate-income persons and activities that serve an area generally (a new community center, for example, or sidewalk repairs) where the majority of the residents of that service area are low- and moderate-income persons.

Eligible Activities:

Grantees may use CDBG funds for activities that include (but are not limited to):

- Acquiring real property (primarily land, buildings, and other permanent improvements to the property) for public purposes. This type of activity might include, for example, buying abandoned houses for rehabilitation or an old industrial site in a distressed neighborhood for redevelopment. CDBG also helps communities demolish property and clear sites to prepare the land for other uses.
- Reconstructing or rehabilitating housing and other property. From homeless shelters to single-family homes and from playgrounds to shopping centers, CDBG enables communities to improve properties that have become less usable, whether due to age, neglect, natural disaster, or changing needs. New construction of housing is allowed only in certain circumstances.
- Building public facilities and improvements, such as streets, sidewalks, sewers, water systems, community and senior citizen centers and recreational facilities.
- Helping people prepare for and obtain employment through education and job training, welfare-to-work activities, and other services.
- Assisting for-profit businesses for special economic development activities. Such projects might include microenterprise loans to low-income entrepreneurs, assembling land to attract new industry, or business expansion loans to help retain existing businesses that employ low-income workers.
- Providing public services for youths, seniors, or the disabled. These might include day care centers, youth services and meals on wheels for the elderly, health care facilities, transportation, or counseling.
- Carrying out crime reduction initiatives such as establishing neighborhood watch programs, providing extra police patrols, rehabilitating or constructing police substations, and clearing abandoned buildings used for illegal activities.
- Assisting low-income homebuyers directly through, for example, downpayment assistance, subsidizing interest rates or helping with closing costs for first-time buyers.
- Enforcing local building codes to reverse housing deterioration and other signs of blight.
- Paying for planning and administrative expenses

City Clerk
City of Lodi

Dear Mayor & City Council Members,

I am writing you as a resident of Lodi and a recipient of the Senior Brown Program. I believe it is important for you to know how my life would be adversely affected should this program be eliminated. As a person on a fixed income, it would be impossible for me to replace the supplemental groceries I receive. On behalf of myself and other low-income seniors, please do not eliminate the funding for this program. Please support Second Harvest Food Bank and their Senior Brown Bag Program.

Sincerely,

Dear Mayor & City Council Members,

I am writing you as a resident of Lodi and a recipient of the Senior Brown Program. I believe it is important for you to know how my life would be adversely affected should this program be eliminated. As a person on a fixed income, it would be impossible for me to replace the supplemental groceries I receive. On behalf of myself and other low-income seniors, please do not eliminate the funding for this program. Please support Second Harvest Food Bank and their Senior Brown Bag Program.

Sincerely,

Josephine Ezomo
