

COUNCIL COMMUNICATION

TO: THE CITY COUNCIL COUNCIL MEETING DATE: OCTOBER 18, 1989
FROM: THE CITY MANAGER'S OFFICE

SUBJECT: CONSIDER REQUESTS OF DARYL GEWEKE FOR AN AMENDMENT TO THE LAND USE ELEMENT OF THE GENERAL PLAN AND A **PREZONING**

INDICATED ACTION: That the City Council conduct public hearings on the following requests of Daryl Geweke:

1. to amend the Land Use Element of the Lodi General Plan by redesignating a 51 acre parcel at the northeast corner of Kettleman Lane and Beckman Road from Unclassified Industrial to Light Industrial.
2. to prezone the parcel of land at the northeast corner of Kettleman Lane and Beckman Road, M-1, Light Industrial.

The public hearings may be conducted concurrently, **but** the items must be acted on separately.

BACKGROUND INFORMATION: The purpose of this request is to provide the zoning so that the developer can build a 51 acre commercial industrial complex adjacent to Highway 99. At the Planning Commission public hearing the proponents stated that the center will have several automobile dealerships as well as retail commercial and light industrial development. A specific development plan has not been submitted to the City.

At the Planning Commission hearing, much of the discussion centered on the potential traffic problems that may result from the project. Much of the traffic generated by the project will flow through the Kettleman Lane/Beckman Road intersection. This intersection is not designed to handle the projected volumes. Caltrans has expressed a concern that traffic waiting to turn left from Kettleman Lane onto Beckman Road could back up all the way to Cherokee Lane during peak periods. This would adversely affect the on and off ramps of Highway 99 as well as traffic on Kettleman Lane and Cherokee Lane.

Based on the potential traffic problem, the Planning Commission has recommended that the City Council consider realigning Beckman Road further to the east. This would move the intersection away from the highway on and off ramps, reducing the potential traffic conflicts. It would also facilitate the future installation of traffic signals at the Beckman/Kettleman intersection.

The question of who is responsible for funding the realignment of Beckman Road was not resolved. The Planning Commission felt that the cost could be funded by the development fees being proposed by the Public Works Department that would be collected from this project and future projects in the City to pay for needed infrastructure improvements.

At the Planning Commission hearing, the proponents also expressed the willingness to work with Caltrans on a Park & Ride commuter lot on the site to help reduce traffic volumes.

Based on the testimony they received at the hearing, the Planning Commission voted to recommend a different General Plan and zoning designation from the one requested by the applicant. The Planning Commission is recommending a General Plan designation of Commercial and a rezoning to C-2, General Commercial. The Planning Commission felt the commercial designation was more appropriate for the location and would be a better use adjacent to the future park/basin to the north and the houses to the south. The C-2 zoning will also accommodate most of the uses proposed by the applicant, including the automobile dealerships.

If the City Council approves the requests, the Public **Works** Department should be authorized to negotiate with the developer on the amount of sewer capacity that will be available to the project pending completion of the White Slough expansion. In addition, the Public Works Department should also be authorized to negotiate a fair share payment of development fees and/or charges. The development fees are part of a comprehensive fee structure being developed by Public Works, in conjunction with the General Plan Update to fund future infrastructure and public facility improvements.
