CITY COUNCIL MEETING

OCTOBER 19, 1983

Page 45

PUBLIC HEARINGS

LODI UNIFIED
SCHOOL DISTRICT
DECLARATION OF
IMPACTION

Notice thereof having been published in accordance with law and affidavit of publication being on file in the office of the City Clerk, Mayor Olson called for the Public Hearing to consider the 1983-84 Declaration of Impaction by the Lodi Unified School District Board of Trustees.

The matter was introduced by Ellerth E. Larson, Superintendent of Schools. Mary Joan Starr, Facility Planner for the Lodi Unified School District gave a report concerning the matter and responded to questions regarding the subject as were posed by members of the City Council. The following information regarding the subject was provided Council.

The projected Lodi Unified School District student enrollment for the 1983-84 school year is 16,433 students. This is a projected increase of approximately 400 students over last year and does not take into account any sudden influx of students which might occur as the result of significant residential construction within the District. In January, 1983, local agencies and developers reported probable summertime construction of approximately 710 residential units with an additional 5,000± units in the planning stages.

18%, or more importantly, 3,047 of the statistically projected number of students planned for arrival are considered "unhoused," meaning that there are insufficient regular classrooms available in the coming school year in the District, thereby necessitating the implementation of continued temporary student housing alternatives.

It is the District's plan to house regular, special education and pull-out program students in the following manner during the 1983-1984 school year.

431 permanent classrooms.

???"other" in-school spaces, i.e., storage areas, work rooms, offices, etc. that are "unofficially" used as classroom space
