

RESOLUTION NO. 83-136

RESOLUTION APPROVING MODIFICATION TO THE WOODBRIDGE  
IRRIGATION DISTRICT DRAINAGE AGREEMENT

RESOLVED, that the City Council of the City of Lodi does hereby approve the modification to the Woodbridge Irrigation District Drainage Agreement, a copy of which is attached hereto, marked Exhibit A, and thereby made a part hereof.

BE IT FURTHER RESOLVED, that the City Manager and City Clerk are hereby authorized to execute the subject Agreement on behalf of the City.

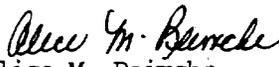

Dated: November 16, 1983

I hereby certify that Resolution No. 83-136 was passed and adopted by the City Council of the City of Lodi in a regular meeting held November 16, 1983 by the following vote:

Ayes: Council Members - Reid, Murphy, Snider,  
Pinkerton, & Olson (Mayor)

Noes: Council Members - None

Absent: Council Members - None

  
Alice M. Reinche  
City Clerk

AGREEMENT

THIS AGREEMENT made this 16th day of November, 1983, by and between WOODBRIDGE IRRIGATION DISTRICT, a District organized and existing under the California Irrigation District Act, hereinafter called "DISTRICT" and the CITY OF LODI, a Municipal Corporation, hereinafter called "CITY."

W I T N E S S E T H :

THAT, WHEREAS, DISTRICT and CITY have entered into an agreement dated July 1, 1971, regarding discharge of storm waters from the CITY into the South Main Canal of said DISTRICT; and

WHEREAS, CITY proposes to reconstruct the "MILLS AVENUE" outlet described in said agreement.

NOW, THEREFORE, in consideration of and subject to the covenants and conditions herein contained, it is hereby agreed that Paragraphs 3 and 4 of said 1971 agreement are deleted. The parties further agree that Paragraphs 3 and 4 hereinbelow set forth shall apply.

3. It is recognized that the irrigation canals are for DISTRICT irrigation purposes and the CITY agrees to operate its facilities introducing water into said canal in a reasonable fashion such that it will not overload the canal or otherwise interfere with the operations of the DISTRICT and such that the quantity of water discharged by the CITY, when added to the water otherwise in the canal, shall not exceed the capacity of the canal or overflow the same.

In addition to the above requirements, the total quantity of water discharged by the CITY at any one time shall not exceed the flow rate of 80 cfs and shall be regulated by the City as follows:

**RECEIVED**

NOV - 8 1983

**CITY OF LODI**  
PUBLIC WORKS DEPARTMENT

a. When the canal is in use by the DISTRICT for irrigation:

1. During the first twelve (12) hours of a storm, the flow rate of discharge shall be limited to 20 cfs at each outlet location.

2. At all other times the flow rate of discharge shall not exceed 40 cfs at either outlet location.

b. When the canal is not in use for irrigation, the flow rate of discharge at either outlet location may be increased to 60 cfs provided that the total flow rate of discharge from both outlet locations shall not exceed 80 cfs.

4. THE CITY agrees to:

a. Install and maintain flow metering devices on each outlet. DISTRICT shall be given constant access to instantaneous discharge data and furnished with available recorded data.

b. Do no work in the right-of-way of the DISTRICT other than inspection and maintenance without receiving authorization from the DISTRICT.

c. Allow DISTRICT to inspect pumping stations, flow metering and recording devices, and outlet facilities.

d. Install concrete or riprap material, at the request of the DISTRICT, where needed to protect the canal from erosion due to the introduction of water by the CITY.

As herein amended and modified, said agreement of July 1, 1971, shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have executed this agreement the day and year hereinabove written.
