

RESOLUTION NO. 2010-23

A RESOLUTION OF THE LODI CITY COUNCIL
AUTHORIZING THE TRANSPORTATION MANAGER TO
EXECUTE AGREEMENT WITH GOOGLE TRANSIT

=====

WHEREAS, the City of Lodi's Transit Division has been given an opportunity to participate in Google Transit, an online transit trip planning tool that coordinates transit data from agencies across the country and around the world to disburse transit information to customers; and

WHEREAS, the California Center for Innovative Transportation (CCIT), a program coordinated through the University of California, Berkeley and funded in part by Caltrans, is facilitating a pilot program for a limited number of small transit agencies in the region. CCIT will coordinate initial participation in Google Transit, which entails conversion of schedule, route, and fare data to the open-source Google Transit Feed Specification (GTFS) and will train City staff to update and maintain bus stop locations, travel timing, and fare information as necessary on the GTFS; and

WHEREAS, CCIT estimates a potential time commitment of 40 hours per year for maintenance of the data, and if the City determines that the maintenance commitment is too great, CCIT has proposed third-party vendor assistance for the agency (potentially \$900 per year); and

WHEREAS, Google Transit is a free service, but requires a signed Google Transit Agreement to ensure that the City of Lodi will maintain accurate information on the Google Transit Feed Specification.

NOW, THEREFORE, BE IT RESOLVED that the Lodi City Council does hereby authorize the Transportation Manager to execute an agreement with Google Transit for participation in an online transit trip planning tool.

Dated: March 3, 2010
